Planning and Project Implementation Update

January 2013

---

### ABOUT THIS UPDATE

The purpose of the Chippewa Quarterly is to provide a summary of environmental analyses on the Chippewa National Forest. Issued quarterly, this is intended to complement other public involvement efforts initiated by the Forest Supervisor or District Rangers. Legal notices will continue to be published in the following local newspapers: Bemidji's *The Pioneer* for Forest Supervisor decisions; and Blackduck's *American*, Deer River's *Western Itasca Review*, and Walker's *The Pilot-Independent* for District Ranger decisions.

Projects are classified into one of three categories:

#### **Environmental Analyses in Progress**

This category includes projects in which public input is being or is about to be solicited. It also includes those projects that are currently under study or analysis. Environmental analyses include Environmental Impact Statements (EIS), Environmental Assessments (EA), and Categorical Exclusions (CE).

#### **Completed Decision Documents**

These projects have culminated in the preparation of completed environmental analyses and decision documents since the last issue. These decision documents include Records of Decision (ROD), Decision Notices (DN), and Decision Memos (DM). Findings of No Significant Impacts will be included in this category, also.

#### **Proposals Cancelled or On Hold**

Some projects initiated and published in this Quarterly may be cancelled or deferred for various reasons. These projects may or may not be picked up for completion at a later date.

### **HOW YOU CAN BECOME INVOLVED**

Read through the list of proposed projects. If you want to provide site-specific comments on a project, get more information, or be placed on the project mailing list, write or call the contact person listed for that project. It is only through site-specific input that we can be responsive to and incorporate your concerns into project development.
